OBJECTIVE

Enthusiastic Information Technology graduate with a passion for full-stack development. Proficient in frontend and backend technologies, eager to contribute innovative solutions in a dynamic work environment.

EDUCATION

B.TECH Information Technology   **Nov 2020 -May2024**

PARK College of Engineering and Technology, Coimbatore

SKILLS

Programming Languages: JavaScript, Python

Frontend Development: HTML, CSS, React.js, Tailwind CSS, MUI

Backend Development: Node.js, Express.js

Database Management: MongoDB, SQL

API Development & Integration: REST APIs

Tools & Frameworks: Git, GitHub, AWS, MS Office

EXPERIENCE

Web Developer Intern – OctaNet Services   **Oct 2024 – Jan 2025**

- Contributing to the development and maintenance of scalable web applications using React.js, Node.js, SQL and RESTful APIs.
- Collaborating with cross-functional teams to enhance application efficiency, debug issues, and implement new features to improve user experience.

PROJECTS

E–Commerce Website

- Built a responsive e-commerce platform with features like product filtering, shopping cart, and secure user login to improve overall user experience.
- Designed and implemented key user flows including browsing, purchasing, and account management, resulting in a seamless and intuitive interface.
- Optimized website performance and responsiveness across devices, ensuring fast load times and a consistent shopping experience for all users.

Weather Forecast Website using React

- Built a responsive weather forecast website that fetches real-time weather data using a third-party API based on user input or location.
- Enhanced user experience with features like dynamic search, location-based updates, and clear visual presentation of weather conditions.

CERTIFICATIONS

- **Python for Data Science from IIT Madras Through -** Completed a comprehensive program covering Data manipulation, analysis, and visualization techniques.
- **Software Testing from IIT Kharagpur Through NPTEL -** Gained foundational knowledges in test design, validation, debugging, and quality assurance principles.
- **Guvi Full Stack with Python Programming –** Acquired fundamental skills in full-stack development using Python, including building web applications.
- **AWS Cloud Practitioner Essentials -** Gained foundational knowledge in cloud computing, core AWS services, security, and cloud architecture best practices.
